

HW06 AI Audit Report

AI Audit Report

Declaration: I use AI tools for the following tasks.

Time	Tool	Prompt / Task	Output	Human Review
2026-08-22 22:30 Asia/Saigon	Codex / ChatGPT	Read HW06 assignment and agent notes, inspect existing repository structure.	Identified required deliverables and selected existing APIs in api_list.md.	Verified against hw06/2026.HW06.API Testing_En.md and agent-notes.md.
2026-08-22 22:30 Asia/Saigon	Codex / ChatGPT	Analyze api_specification.md and backend implementation.	Found contracts for FR03, FR09, FR13 and likely defects.	Checked backend/server.js before writing expected results.
2026-08-22 22:30 Asia/Saigon	Codex / ChatGPT	Generate 31-34 AI cases, 3-5 invalid/incomplete AI cases, and 5 human cases per API.	Produced Excel workbooks and Postman data files.	Invalid/incomplete cases were corrected or annotated.
2026-08-22 22:30 Asia/Saigon	Codex / ChatGPT	Build data-driven Postman/Newman artifacts.	Produced collection, environment, data files, and run notes.	Headers and expected schemas were reviewed manually.
2026-08-22 22:30 Asia/Saigon	Codex / ChatGPT	Draft report, bug report, CI/CD report, and agent-skill design.	Produced Markdown templates with TODO markers for real GitHub screenshots/links.	Fabricated evidence was not inserted.

Raw conversational output is available in the Codex session. This Markdown audit records the required tool, time, prompt/task, output, and review summary for submission.
